MEMORANDUM

DATE	June 21, 2010
TO	Acupuncture Board members
FROM	Cathy Hardin Schau, Education Coordinator
SUBJECT	Follow-up site visit & program review: Nine Star University of Health Sciences, Master of Science in Traditional Chinese Medicine (MSTCM) Program

Application timeline & curriculum changes

October 17, 2008: Application is received for the MSTCM program at NSUHS. The application specifically requires that course syllabi are submitted for each course offered in the training program however the material submitted by NSUHS included only a general descriptive paragraph for the program's courses, with several course descriptions missing.

January 28, 2009: In response to a request for detailed course syllabi, NSUHS submits documentation for some of the courses offered. Based on the list of courses offered, thirteen syllabi are missing.

April 20, 2009: In response to another request, the missing syllabi are submitted.

April 28, 2009: I send NSUHS a detailed analysis of the curriculum requirement form that they submitted for their program. Based on the course syllabi received on January 28 and April 20, the training program is extremely deficient in almost every subject area. Additionally, the syllabi submitted do not contain sufficient detail to accurately describe the courses, and in many cases do not represent enough training material to justify the number of hours offered for a course.

May 14, 2009: In response to the April 28 letter, NSUHS submits a curriculum requirement form and course syllabi for a second, entirely new program curriculum.

July 14, 2009: I send NSUHS a letter noting that the new curriculum still does not meet the required number of instruction hours in the herbal medicine subject area.

July 23, 2009: NSUHS submits an updated curriculum that includes an additional herbal training course.

March 29, 2010: In response to concerns raised by Board members at the November 19, 2009 meeting, NSUHS submits a curriculum requirement form and course syllabi for a third new program curriculum.

April 27, 2010: I present a review of the third version of NSUHS' program curriculum at the Board meeting. The new curriculum includes a number of deficiencies and areas of concern that are noted in the report. In response to this report, the Board requires that NSUHS submit final, accurate descriptions of the courses that make up the program's curriculum.

May 11, 2010: A letter detailing the Board's decision is sent to NSUHS (Attachment 1).

May 26, 2010: NSUHS submits a fourth, updated version of all of the courses offered in the program. They also notify the board that they hired Ronald Sokolsky as an "educational consultant" to complete the review and revision of the course syllabi.

Review of Fourth Revised Curriculum

- In the current, updated curriculum, the total number of training hours has decreased by 30, for a new total of 3,315 hours.
- Due to this decrease of hours, the courses that meet the requirements of the Basic Sciences category, Section 1399.434(a), now total only 345 hours. This is 5 hours short of the required minimum of 350 hours of instruction in this category.
- The course outlines for AC 701-"Special Acupuncture Techniques" and HM 202-"Herbal Formulas II" have not been updated from the previous versions. The outlines for these courses are identical, and include training in acupuncture needling and adjunctive techniques that are not typically seen in an herbal formulas course (Attachment 2).
- Although the Course Description section of the syllabus for FD 106-"Nei Jing" was updated, the course outline remains unchanged from the previous version and is identical to the course outline for AC 601-"Acupuncture VI" (Attachment 3).
- FD 561-"Clinical Medicine" is identified as fulfilling the following subject area:

Clinical medicine – A survey of the clinical practice of medicine, osteopathy, dentistry, psychology, nursing, chiropractic, podiatry, naturopathy, and homeopathy to familiarize practitioners with the practices of other health care practitioners (Section 1399.434(c)(10))

The course outline for this course indicates that students will learn how to identify diseases, recognize which diagnostic tests are needed and whether to refer, and how to treat patients. However there is no indication that the course includes an overview of the therapeutic techniques practiced by the health care providers listed in the subject area requirement (Attachment 4).

- None of the course outlines, the current catalog, or the clinic manual contains a requirement for students to complete a first aid and CPR course. Section 1399.434(f)(3) requires all training programs to include “a minimum of eight (8) hours in first-aid and adult/child cardiopulmonary resuscitation (CPR) from the American Red Cross, American Heart Association or other organization with an equivalent course approved by the board”.

Conclusions

Despite the fact that NSUHS has now revised their curriculum three times, with feedback from the board each time regarding deficiencies, the training program offered at this school is not in full compliance with the Acupuncture Regulations.

Additionally, these frequent changes to the training program curriculum will likely place a large burden on students currently enrolled in the program. More than half of the student body, or approximately 27 students, have been enrolled since 2008 or 2009, and have almost certainly completed some of the courses for which the curriculum has changed significantly at least once in the last 12 months. In many cases, these courses will not have been compliant in their previous form and students will have to retake courses in order to complete the CAB requirements.

Based on the information provided by the school, there does not appear to have been sufficient improvement to the training program to warrant approval by the CAB.

ACUPUNCTURE BOARD

Attachment 1

May 11, 2010

Philip Yang, President
Nine Star University of Health Sciences
441 De Guigne Dr. #301
Sunnyvale, CA 94085

Dear Philip,

As you know, at the May 6, 2010 board meeting the Acupuncture Board voted once again to postpone consideration of approval for the Master of Science in Traditional Chinese Medicine program offered at NSUHS. The Board's approved motion requires the school to submit final, accurate descriptions of the program curriculum, after which a new report will be presented to Board members for their consideration at the July 8th, 2010 meeting. Please provide the following to our office **no later than May 21, 2010**:

- Please review the curriculum syllabi that were submitted on March 29, 2010, and submit a letter verifying that all of the information contained on those syllabi is true and correct and accurately describes the courses that are taught at NSUHS. If you find that any syllabus does not accurately describe the course, please submit a corrected syllabus.

- Please resubmit syllabi for the following courses:
 - All courses that include instruction in herbal medicine and botany
 - AC 301 – Acupuncture III
 - AC 501 – Acupuncture V
 - AC 701 – Special Acupuncture Technique
 - AC 601 – Acupuncture Theory Therapy
 - FD 106 – Nei Jing
 - FD 401 – TCM Internal Medicine I
 - FD 404 – TCM Internal Medicine II
 - FD 511 – Wen Bing
 - FD 512 – Classics IV Jin Kui (Golden Chamber)
 - FD 561 – Clinical Medicine
 - PH 402 – TCM Case Management I
 - PH 403 – Public Health
 - PH 404 – TCM Case Management II
 - PM 401 – Hygiene, Public Health & Epidemiology

Again, please remember that a syllabus should be a complete and accurate description of all instruction that will occur during a course. The syllabus should

detail everything that will be discussed during each course meeting and what, if any, homework will be assigned to students.

If you have any further questions, please contact me at (916) 445-3021 or by email at cathy_hardin@dca.ca.gov.

Sincerely,

Cathy Hardin Schau
Education Coordinator

COURSE SYLLABUS

1. **COURSE TITLE:** SPECIAL ACUPUNCTURE TECHNIQUE
2. **COURSE NUMBER:** AC 701
3. **UNITS/HOURS:** 3/45
4. **INSTRUCTOR:**
 - a. Name: Wan, Guo Z
 - b. Office: 11740 San Pablo Ave Suite A El Cerrito, CA 94530
 - c. Phone #: 510-237-1619
 - d. E-mail address:
 - e. Office Hours: M-F, 10am-5 pm
5. **DATE OF CLASS, TIME:** "[Click here and type quarter,year]" , "[Click here and type hours]"
6. **PREREQUISITES:** AC501, AC601
7. **LOCATION:** Room # 1
8. **COURSE DESCRIPTION:** This course will re-enforce and delve more deeply into hygienic standards included in clean needle techniques, management of possible accidents in acupuncture treatment, equipment maintenance and safety and preparation for various needling techniques. Students will also practice the point location and the needling techniques for twelve primary channels and the Governor and Conception Vessel, while adhering to CNT protocols.
9. **STUDENT LEARNING OUTCOMES:**

Outcome 2 Graduates demonstrate competency in the practice of Acupuncture and Oriental medicine.

 - 2.1 Students will understand the concepts and theories of selected acupuncture techniques
 - 2.2 Graduates will be able to perform AOM diagnostic methods and assessment criteria, and formulate, implement, monitor, and adapt treatment plans in a safe clinical environment.

Outcome 3 Graduates demonstrate competencies in patient care in compliance with ethical, legal, and safety guidelines and communicate effectively in diverse settings.

 - 3.1 Graduates will be able to identify medical emergency situations and conduct standardized procedures, including referrals to other primary healthcare professionals, emergency actions, and compliance with legal regulations.
10. **PURPOSE OF COURSE:** To teach students the Clean Needle Techniques and management of possible accidents in acupuncture treatment. To teach students how to select and competently use various techniques of acupuncture needling. To teach students how to locate and insert with confidence needles on the acupoints of the twelve primary channels including the Governor and Conception Vessel.
11. **COURSE OBJECTIVES:**
 - a. To introduce and practice the clean needle techniques
 - b. To indicate precaution and prevention of accidents in acupuncture treatment
 - c. To demonstrate appropriate preparation for needling
 - d. To practice various needling techniques
 - e. To practice locating and inserting needles on the acupoints of the twelve primary channels
12. **TEXTBOOKS:**
Required Textbooks:

13. Grading Scale:

	Letter Grade	GPA	Numeric Value
Superior	A	4.0	94 – 100
	A-	3.7	90 - 93.5
Above Average	B+	3.5	86 – 89.5
	B	3.0	83 – 85.5
	B-	2.7	80 – 82.5
Satisfactory	C+	2.5	76 – 79.5
	C	2.0	73 – 75.5
	C-	1.7	70 – 72.5
Below Average	D+	1.3	68 – 69.5
	D	1.0	65 – 67.5
Failure	F	0.0	Below 65
Incomplete	I		
Audit	AU		

14. Course Requirements:

Attendance	5%
Midterm	40%
Final	40%
Quizzes, Homework, Essays, Case Study, Presentation, and/or Reports, etc.	15%
TOTAL	100%

15. Academic Dishonesty:

“Cheating and plagiarism will not be tolerated. If you are caught cheating or plagiarizing in any form, you will receive a failing grade for the course and be reported to the Academic Dean for appropriate disciplinary action.”

16. Americans with Disabilities Act (ADA) Accommodation: :

University is committed to providing reasonable academic accommodation to students with disabilities. The Academic Office along with each class and instructor will provide academic support services and specialized assistance to students with disabilities. Individuals with physical, perceptual, or learning disabilities as addressed by the Americans with Disabilities Act should contact the Student Services Director or the ADA Officer for information regarding accommodations. Please notify your instructor

Nine Star University of Health Sciences

441 De Guigne Dr. #201, Sunnyvale, CA 94085 USA TEL: 408-532-5567 FAX: 408-733-3610

if you have filed and received ADA status so that reasonable efforts can be made to accommodate you. If you expect accommodation through the Act, you must make a formal request through Students Services Director or with the ADA officer.

COURSE OUTLINE

1. CNT (clean needle techniques, refer to NCCA Manual):
 1. Clean field
 2. Hand Washing
 3. Autoclave sterilization
 4. Use of alcohol balls
 5. Management of used cotton balls and local (point) cleaning
 6. Handling and management of blood-stained cotton balls
 7. Management of used needles
 8. Precautions for preventing contamination
2. Filiform needle:
 1. The structure and specification
 2. Needling practice
 3. Preparation prior to treatment
3. Needling methods:
 1. Insertion
 2. Angle and depth of insertion
 3. Manipulations and arrival of Qi (Needling reaction)
 4. Retaining and withdrawing the needle
 5. Reinforcing and reducing methods
4. Description and Analysis of Ancient Acupuncture Techniques :
 1. Standards of needling
 2. Classification of Needling Methods in the "Inner Classics "
 3. Needling Methods in the "Classic of Difficulty and Later Works "
 4. Techniques of Moving the Qi, Strengthen and Draining the Qi.
5. Precautions, contraindications, and management of possible accidents in acupuncture treatment:
 1. Precautions and contraindications in acupuncture treatment
 2. Management of possible accidents (syncope or fainting, bent needle, broken needle, and struck needle)
 3. Equipment maintenance and safety
 4. Yang Jizhou's twelve manipulations
6. Practice of acupuncture points (location and inserting):
 1. Points on the Governor and Conception Vessels
 2. Points on the Hand and Foot of the twelve Primary Channels

WEEKLY SCHEDULE

- Week 1-3:** CNT (clean needle techniques, refer to NCCA Manual)
- Clean field
 - Hand Washing
 - Autoclave sterilization
 - Use of alcohol balls
 - Management of used cotton balls and local (point) cleaning
 - Handling and management of blood-stained cotton balls

Nine Star University of Health Sciences

441 De Guigne Dr. #201, Sunnyvale, CA 94085 USA TEL: 408-532-5567 FAX: 408-733-3610

- Management of used needles
- Precautions for preventing contamination

- Week4-7:** Filiform needle:
- The structure and specification
 - Needling practice
 - Preparation prior to treatment

Needling methods

- Insertion
- Angle and depth of insertion
- Manipulations and arrival of Qi (Needling reaction)
- Retaining and withdrawing the needle
- Reinforcing and reducing methods

Description and Analysis of Ancient Acupuncture Techniques :

- Week 8** **Mid- Term**

- Week 9:**
- Standards of needling
 - Classification of Needling Methods in the "Inner Classics "
 - Needling Methods in the "Classic of Difficulty and Later Works "
 - Techniques of Moving the Qi, Strengthen and Draining

Precautions, contraindications and management of possible accidents in acupuncture treatment:

- Precautions and contraindications in acupuncture treatment
- Management of possible accidents (syncope or fainting, bent needle, broken needle, and struck needle)
- Equipment maintenance and safety
- Yang Jizhou' twelve manipulations

- Week 10:** Practice of acupuncture points (location and inserting):
Points on the Governor Vessel and Conception Vessel

- Week 11:** Points on the hand taiyin Lung channel and hand yangming
Large Intestine channel
Points on the foot yangming Stomach channel and foot taiyin Spleen channel

- Week 12:** Points on the hand shaoyin Heart channel and hand taiyang Small Intestine channel.

- Week 13:** Points on the foot taiyang Urinary Bladder and foot shaoyin Kidney
Points on the hand shaoyang Triple Energizer and hand jueyin Pericardium

- Week 14:** Points on the foot shaoyang Gall Bladder and foot jueyin Liver
Practical Review of Point Location

- Week15:** **Final-Exam**

COURSE SYLLABUS

1. **COURSE TITLE:** HERBAL FORMULA II
2. **COURSE NUMBER:** HM 202
3. **UNITS/HOURS:** 4/60
4. **INSTRUCTOR:**
 - a. Name: Fan, Xiu Zhen (Jenny)
 - b. Office: 1207 South Park Victoria blvd, Milpitas, CA 95035
 - c. Phone #: 408-935-8668
 - d. E-mail address:
 - e. Office Hours: M-F; 10am-5pm
5. **DATE OF CLASS, TIME:** "[Click here and type quarter,year]" , "[Click here and type hours]"
6. **PREREQUISITES:** Upper Division Standing
7. **LOCATION:** Room # "[Click here and type Room#]"
4. **COURSE DESCRIPTION:**

This course covers the hygienic standards including clean needle techniques, management of possible accidents in acupuncture treatment, equipment maintenance and safety and preparation for various needling techniques. Students practice the point location and the needling techniques for six channels (Urinary Bladder, Kidney, Pericardium, San Jiao, Gall Bladder, Liver channels) and the extraordinary points. Students also practice auricular, scalp, cutaneous, and warming acupuncture as well as electro-acupuncture, cupping, bleeding, gua sha, dermal tacks and cold and heat therapy including moxibustion and ultrasound. Students practice acupuncture point stimulation devices including magnets and beads, too.
5. **STUDENT LEARNING OUTCOMES:**

Outcome 2 Graduates demonstrate competency in the practice of Acupuncture and Oriental medicine.

 - 2.1 Graduates will be able to explain the major concepts and theories of Acupuncture and Oriental medicine.
 - 2.2 Graduates will be able to perform AOM diagnostic methods and assessment criteria, and formulate, implement, monitor, and adapt treatment plans.

Outcome 3 Graduates demonstrate competencies in patient care in compliance with ethical, legal, and safety guidelines and communicate effectively in diverse settings.

 - 3.1 Graduates will be able to identify medical emergency situations and conduct standardized procedures, including referrals to other primary healthcare professionals, emergency actions, and compliance with legal regulations.
6. **PURPOSE OF COURSE:** To teach students the Clean Needle Techniques and management of possible accidents in acupuncture treatment. To teach students a proper use of various techniques of acupuncture needles. To teach students how to locate and insert needles on the acupoints of the six channels and extraordinary acupoints. To teach ear and scalp acupuncture, cutaneous acupuncture, intradermal acupuncture, warming acupuncture, three-edged needle, electro-acupuncture, moxibustion, and cupping.
7. **SPECIFIC OBJECTIVES:**
 - a. To introduce and practice the clean needle techniques
 - b. To demonstrate appropriate preparation for needling
 - c. To practice various needling techniques and other acupuncture techniques

Nine Star University of Health Sciences

441 De Guigne Dr. #201, Sunnyvale, CA 94085 USA TEL: 408-532-5567 FAX: 408-733-3610

- d. To indicate precaution and prevention of accidents in acupuncture treatment
- e. To practice locating and inserting needles on acupoints of the above six channels and the extraordinary points
- f. To practice ear and scalp acupuncture
- g. To practice moxibustion and cupping
- h. To practice three-edged needles
- i. To practice cutaneous needles
- j. To practice other acupuncture techniques

8. TEXTBOOKS:

WEEKLY SCHEDULE

Week 1&2&3

CNT (clean needle techniques, refer to NCCA Manual)

- Clean field
- Hand Washing
- Autoclave sterilization
- Use of alcohol balls
- Management of used cotton balls and local (point) cleaning
- Handling and management of blood-stained cotton balls
- Management of used needles
- Precautions for preventing contamination

Filiform needle:

- The structure and specification
- Needling practice
- Preparation prior to treatment

Week 4&5&6

Needling methods

- Insertion
- Angle and depth of insertion
- Manipulations and arrival of Qi (Needling reaction)
- Retaining and withdrawing the needle
- Reinforcing and reducing methods

Precautions, contraindications and management of possible accidents in acupuncture treatment:

- Precautions and contraindications in acupuncture treatment
- Management of possible accidents (syncope or fainting, bent needle, broken needle, and struck needle)
- Yang Jizhou' twelve manipulations

Week 7

- Practice of acupuncture points (location and inserting):
- Foot Taiyang Urinary Bladder channel

Week 8

- Mid- Term Exam

Week 9

- Continued Foot Taiyang Urinary Bladder Channel

Week 10

- Foot Shaoyin Kidney Channel

Week 11

- Hand Jueyin Pericardium channel

Week 12

- Hand Shaoyang Sanjiao channel

COURSE SYLLABUS

1. **COURSE TITLE:** Nei Jing
2. **COURSE NUMBER:** FD 106
3. **UNITS/HOURS:** 3/45
4. **INSTRUCTOR:**
 - a. Name: Hu, Nai Wen
 - b. Office: 4157 Byron Street, Apt #A Palo Alto, CA 94306
 - c. Phone #: 650-209-6598
 - d. E-mail address: nevirn.hu@gmail.com
 - e. Office Hours: M-F ; 8am-5pm
5. **DATE OF CLASS, TIME:** Spring 2010, Saturday 2pm to 5pm
6. **PREREQUISITES:** Upper Division Standing
7. **LOCATION:** Room # 1
8. **COURSE DESCRIPTION:**
 In this course, the essential concepts of the Nei Jing (The Cannon of Internal Medicine) will be presented from translations of the original articles. Nei Jing is attributed to the legendary Huang Di (Yellow Emperor) and serves as the source for TCM diagnosis and acupuncture theory, covering Yin/Yang, Five Elements, Zang organs and their manifestations, and channels and their networks. The theories of pathogens and clinical diseases and symptoms, diagnostic methods, therapeutic principles and methods, and the theory of health preservation will be reviewed. The teacher and student work together to understand the true meaning of this ancient Chinese medical text.
9. **STUDENT LEARNING OUTCOMES:**
Outcome 2 Graduates demonstrate competency in the practice of Acupuncture and Oriental medicine.
 - 2.1 Graduates will be able to explain the major concepts and theories of Acupuncture and Oriental medicine.
 - 2.2 Graduates will be able to perform AOM diagnostic methods and assessment criteria, and formulate, implement, monitor, and adapt treatment plans.
 - 2.3 Graduates will be able to perform Acupuncture treatments.
10. **PURPOSE OF COURSE:**
 Wen Bing Xue: To introduce students to the different infectious syndromes those are caused by exogenous heat or warm factors. Students are taught how to diagnose, set treatment principles, and select the correct herbal formula.
11. **COURSE OBJECTIVES:**
 - a. To explain the principles of acupuncture prescription and treatment
 - b. To explain and analyze the prescriptions of acupuncture points
 - c. To differentiate and analyze the treatments of respiratory diseases
 - d. To differentiate and analyze the treatment of digestive diseases
 - e. To differentiate and analyze the treatment of urogenital disease
 - f. To differentiate and analyze the treatment of psychological diseases

specialized assistance to students with disabilities. Individuals with physical, perceptual, or learning disabilities as addressed by the Americans with Disabilities Act should contact the Student Services Director or the ADA Officer for information regarding accommodations. Please notify your instructor if you have filed and received ADA status so that reasonable efforts can be made to accommodate you. If you expect accommodation through the Act, you must make a formal request through Students Services Director or with the ADA officer.

COURSE OUTLINE

I.A general introduction to the principles of Acupuncture prescription and treatment from Nei ling to modern acupuncture and oriental medicine literature:

1. Acupuncture prescription
2. Principle for point selection

II. Respiratory Diseases

1. Common cold
2. Cough (appendix: whooping cough, pulmonary tuberculosis, scrofula, bronchitis)
3. Asthma

III. Digestive Disease

1. Epigastric pain (appendix, prolapsed of stomach)
2. Vomiting (appendix, indigestion)
3. Hiccup
4. Abdominal pain
5. Diarrhea
6. Dysentery
7. Abdominal distention
8. Jaundice
9. Constipation
10. Prolapse of rectum

IV. Urogenital Diseases

1. Edema
2. Nocturnal enuresis (appendix; diabetes mellitus)
3. Urination disturbance (appendix.: incontinence)
4. Retention of urine (appendix: renal colic, prostatitis)
5. Impotence (appendix: Seminal Emission)

V. Psychological Diseases

1. Insomnia (appendix: poor memory, psychosis, neurasthenia)
2. Palpitation and anxiety (appendix: chronic heart failure, hypertension)
3. Epilepsy
4. Dizziness
5. Melancholia

VI. Emergency Care

VII. Family Medicine

Nine Star University of Health Sciences

WEEKLY SCHEDULE

- Week 1&2 : A general introduction to the principles of Acupuncture prescription and treatment from Nei Jing to modern acupuncture and oriental medicine literature:
1. Acupuncture prescription
2. Principle for point selection
- Week 3:
Respiratory Diseases
1. Common cold
2. Cough (appendix: whooping cough, pulmonary tuberculosis, scrofula, bronchitis)
3. Asthma
- Week 4:
Digestive Disease
1. Epigastric pain (appendix: prolapsed of stomach)
- Week 5&6
Digestive Disease
2. Vomiting (appendix, indigestion)
3. Hiccup
4. Abdominal pain
5. Diarrhea
6. Dysentery
- Week 7:
Digestive Disease
7. Abdominal Distention
8. Jaundice
9. Constipation
10. Prolapse of rectum
- Week 8: **Midterm Exam**
- Week 9:
Urogenital Disease
1. Edema
- Week 10:
Urogenital Disease
2. *Nocturnal enuresis (appendix; diabetes mellitus)*
3. Urination disturbance (appendix; incontinence)
- Week 11:
Urogenital Disease
4. Retention of urine (appendix; renal colic, prostatitis)
5. Impotence (appendix; Seminal Emission)
- Week 12&13
Psychological Diseases
1. Insomnia (appendix: poor memory, psychosis, neurasthenia)
2. Palpitation and anxiety (appendix: chronic heart failure, hypertension)
3. Epilepsy
4. Dizziness
5. Melancholia
- Week 14: **Emergency Care, Family Medicine**

Nine Star University of Health Sciences

441 De Guigne Dr. #201, Sunnyvale, CA 94085 USA TEL: 408-532-5567 FAX: 408-733-3610

Week 15: Final-Exam

Nine Star University of Health Sciences

441 De Guigne Dr. #201, Sunnyvale, CA 94085 USA TEL: 408-532-5567 FAX: 408-733-3610

COURSE SYLLABUS

1. **COURSE TITLE:** ACUPUNCTURE THEORY / THERAPY
2. **COURSE NUMBER:** AC 601
3. **UNITS/HOURS:** 4/60
4. **INSTRUCTOR:**
 - a. Name: Wan, Guo Z
 - b. Office: 11740 San Pablo Ave Suite A El Cerrito, CA 94530
 - c. Phone #: 510-237-1680
 - d. E-mail address: N/A
 - e. Office Hours: M-F; 10am-5pm
5. **DATE OF CLASS, TIME:** "[Click here and type quarter,year]" , "[Click here and type hours]"
6. **PREREQUISITES:** Upper Division Standing
7. **LOCATION:** Room # 1
8. **COURSE DESCRIPTION:**
9. This advanced Acupuncture course is an in-depth study of the principles of Acupuncture prescription development and treatment from Nei Jing to modern acupuncture and oriental medicine literature. The course includes a detailed study of clinical acupuncture treatment procedures for different specialties including, but not limited to, emergency care, family medicine, internal medicine such as Respiratory, Digestive, Urogenital, and Psychologic diseases.
10. **STUDENT LEARNING OUTCOMES:**
Outcome 2 Graduates demonstrate competency in the practice of Acupuncture and Oriental medicine.
 - 2.1 Graduates will be able to explain the major concepts and theories of Acupuncture and Oriental medicine.
 - 2.2 Graduates will be able to perform AOM diagnostic methods and assessment criteria, and formulate, implement, monitor, and adapt treatment plans.
 - 2.3 Graduates will be able to perform Acupuncture treatments.
11. **PURPOSE OF COURSE:**
To teach students the basic principles of Acupuncture prescription and treatment. To teach the etiology, pathogenesis, differentiation, diagnosis, and treatment for systemic diseases such as respiratory, digestive, urogenital and psychologic diseases.
12. **COURSE OBJECTIVES:**
 - a. To explain the principles of acupuncture prescription and treatment
 - b. To explain and analyze the prescriptions of acupuncture points
 - c. To differentiate and analyze the treatments of respiratory diseases
 - d. To differentiate and analyze the treatment of digestive diseases
 - e. To differentiate and analyze the treatment of urogenital disease
 - f. To differentiate and analyze the treatment of psychologic diseases

8. **COURSE DESCRIPTION:**

This course presents common diseases from the viewpoint of western medicine. The progression, diagnosis, treatment and prognosis of diseases are covered. Related physical assessments and lab tests are also reviewed. This course will provide a systematic study of common disorders in neurology, dermatology, rheumatology, endocrinology, hematology, and immunology. It will also include pulmonary/respiratory, gastrointestinal, cardiovascular, lymphatic, muscular-skeletal and sexually transmitted diseases.

This course will provide students with an overview of systemic disorders that are pertinent to the practice of clinic TCM from an aspect of western medicine. Attention is given to those medical conditions that are commonly encountered in TCM practice, those that may present with clinic manifestations commonly required in differential diagnosis, those that are of significant importance to medicine in general. Discussions will strive to focus on the patho-physiology, presenting clinic signs and symptoms, diagnostic testing and general management of the various clinic conditions. This course also serves to provide detailed background knowledge for many of those clinic conditions that may require to be referred to other health care professionals.

9. **PROGRAM OUTCOMES:**

- Outcome 1 Graduates apply the knowledge of conventional Medicine in the practice of AOM.
 - 1.1 Graduates will possess the knowledge of how western medicine identifies disease, the way it is used in the areas of evaluation, diagnosis, and medical management of the patient presenting with medical problems which are commonly seen in TCM and other primary care clinics.
 - 1.2 Graduates will have basic interpretive knowledge of laboratory tests and radiographic imaging. (P, M)
 - 1.3 Graduates will possess the knowledge of the important determinants of poor health and of the economic, psychological, social, and cultural factors that contribute to the development and/or continuation of disease.

Nine Star University of Health Sciences

441 De Guigne Dr. #201, Sunnyvale, CA 94085 USA TEL: 408-532-5567 FAX: 408-733-3610

- Outcome 2 Graduates demonstrate competencies in comprehensive patient history taking, diagnosing, and recording using standard medical terminology.
 - 2.1 Graduates will be able to competently develop a working medical diagnosis, including an acupuncture and Oriental Medicine diagnosis.
 - 2.2 Graduates will have the knowledge and ability to communicate and collaborate with other medical professionals. (P, M)
- Outcome 3 Graduates develop and implement effective treatment plans, maintain standardized medical records..
 - 3.1 Graduates will be able to identify and develop safe treatment protocols for individual patients and record patient medical information. (P, M)
 - 3.2 Graduates will be able to identify the tools necessary to safely provide continuity of care. (P, M)
 - 3.3 Graduates will understand the need to engage in lifelong learning to stay abreast of relevant scientific advances, especially in the disciplines of genetics and molecular biology.

10. PURPOSE OF COURSE:

Provide an understanding of the clinic presentation of numerous systemic diseases, particularly those are commonly encountered in the TCM clinic and those have been defined with improved outcomes from TCM management. Present the diagnostic medial evaluation and general management involved in these systemic conditions.

The student is expected to gain clinical knowledge pertaining to the natural course of disease. Provide an understanding of importance of the basic medical science in presenting clinical signs and symptoms, diagnosis and general management of the various clinic conditions. To provide the students with the knowledge and skill sets necessary to provide the optimal health care in an integrated private practice environment.

11. COURSE OBJECTIVES: Upon completion of this course, a successful student will have the knowledge in and be able to;

- a. Understand the clinical manifestation, diagnostic considerations, and management strategies for the systemic diseases by case discussion, analysis.
- b. Identify those critical signs and symptoms of systemic disease commonly seen in TCM clinics that warrant prompt or immediate referral to a medical specialist. systemic disease.
- c. Recognize the clinical indications for the various diagnostic medical procedures and laboratory tests that are necessary or essential for diagnosis, treatment and evaluation of clinic management.
- d. To apply the knowledge gained from Anatomy, Histology, Physiology, Pathology in evaluating systemic diseases.
- e. Acquire and demonstrate the knowledge of basic science and clinical information necessary to evaluate patients, solve clinical problems, and provide patient care. Students will be able to apply appropriate knowledge to the medical problems, diagnoses, and disorders.

12. TEXTBOOK REFERNCES

Required textbooks;

- a. The Merk manual of diagnosis and therapy (17th Edition) by Mark H Beers, and Robert Berkow M.D. 1999, ISBN: 0911910-10-7
- b. Current medical Diagnosis and Treatment (43th Edition) by Tierney, McPhee, Papadakis M.D. McGraw Hill, ISBN: 0-07-139593-8

Supplementary Reading;

- a. Harrison's Principles of Internal Medicine(16th Edition), 2004, McGraw Hill, ISBN: 0071402357
- b. Various Medical Journals

WEEKLY SCHEDULE

(The following is a suggested example.)

Week 1:

Introduction to the course

Infections and Diseases of the skin with case analysis

Week 2:

The cardiovascular with case analysis

Week 3:

Lymphatic system with case analysis

Week 4:

Joints, Bones and Musculoskeletal systems with case analysis

Week 5:

The Pulmonary system with case analysis

Week 6:

The Nervous system with case analysis

Week 7:

Diseases of the Connective tissue with case analysis

Week 8:

Midterm Exam: 50 multiple choice questions and Short essay Questions

Week 9:

Renal, Gastrointestinal, liver, pancreas with case analysis

Week 10:

Cardiovascular system with case analysis

Week 11:

Blood/hematology with case analysis

Week 12:

Integumentary System

Week 13:

Sexual transmitted Diseases (STDs)

Week 14:

Continue: Sexually Transmitted Diseases

Week 15:

Final Exam: 100 multiple choice questions and Short essay Questions
